

Bar Hopper

TECHNICAL DATA SHEET

TECHNICAL DATA

PRODUCT NAME Bar Hopper

USES Allow ProTek Composite Wear Pads to be used without removing welded round bars

DESCRIPTION Bar Hoppers are installed over the round bar so that the pipe rests on the top plate of the Bar Hopper. This design eliminates round bar point loading.

FEATURES

- » Eliminates point loading caused by a bar welded to an I-beam
- » Eliminates metal-to-metal contact

PROPERTIES

COMPOSITION	APP-VEFR
MAXIMUM LOAD	54,000 lbs
TEMPERATURE LIMITS	-60°F to 400°F
